

# Resource Management Plan for Lake Estes, Mary's Lake, East Portal & Common Point

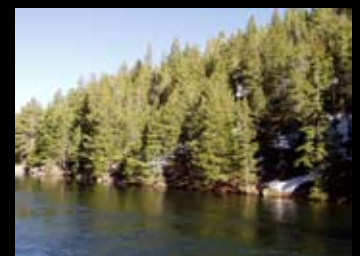

**RECLAMATION**  
*Managing Water in the West*

Estes Valley Recreation and Park District and the Bureau of Reclamation are developing a new Resource Management Plan for these parks to better meet growing recreational needs, and we want to hear from you! Your participation is crucial to the successful outcome of the process.

Over the course of this summer and into the fall, we will work with the public and other agencies to update the Plan. The Resource Management Plan and Environmental Assessment will provide the framework for the management of these parks for the next 10 years. This is an opportunity to participate in improving your parks.

Schedule	
Project Initiation	May 2007
